

NEWS FROM ARIN AND GOOD GIRL

Term: Spring | Issue 4 | Date: June 25, 2021

CONGRATS GRAD!

Up until this past year, Arin was a hard working student at Webb Street School. Involved in the aquaponics system growing lettuce and taking care of fish, baking, participating in the fashion show, working on her speed in running club, and more, all while fostering her entrepreneurial spirit and learning to bake her delicious treats for her business.

Once the pandemic hit, Arin could not attend school for her safety, and she began working full time on her business with her support staff. If you know anything about business, you know most of them fail, so this was no small undertaking. However, Arin has never backed down from a challenge!

To all the teachers, staff, mentors, and friends at Webb Street School, thank you for your endless love, support, grit, and big dreams. Without you, Arin would not be the independent, feisty entrepreneur she is today!

PRODUCT DEVELOPMENT

Let's be honest... is there anyone who doesn't absolutely melt for a puppy?

Take a look at those puppy kisses and tell me you could say no to that face.

That being said, an untrained puppy can quickly turn into your worst nightmare. Arin has been working hard to teach her puppy, Pearl, the ropes, but sometimes breaking big treats into small bite-sized training pieces takes too long. Of course Pearl wants the whole treat, but Pearl could eat Arin out of house and home without the training sized bites!

Arin is testing out her training bits on Pearl to perfect her technique, and soon they'll be available on the online store- check out our social media for more updates!

THANK YOU!

In the midst of yet another unpredictable year, Arin's graduation was not the traditional one. However, your support and gifts have made it so incredibly special for Arin!

Thank you for all the graduation wishes, love, and orders- none of this would be possible without you, and your support continues to blow us away.

WANT TO GET INVOLVED?

Calling all differently abled bakers and volunteers! As production ramps up, we are working hard to keep up and would love your help.

For **differently abled bakers**, come experience, learn, and enjoy the challenge of creating these delicious treats. With time, we'd love for this to become a career for you! Please fill out the form-

<https://forms.gle/kWvhhiJWGd2iZyZS9>

For **volunteers**, we'd love your help too! Whether baking, packaging, marketing, and working with differently abled bakers there is a spot for you on our team. Please fill out the form-
